

# AP Invoice Automation

## The Solution

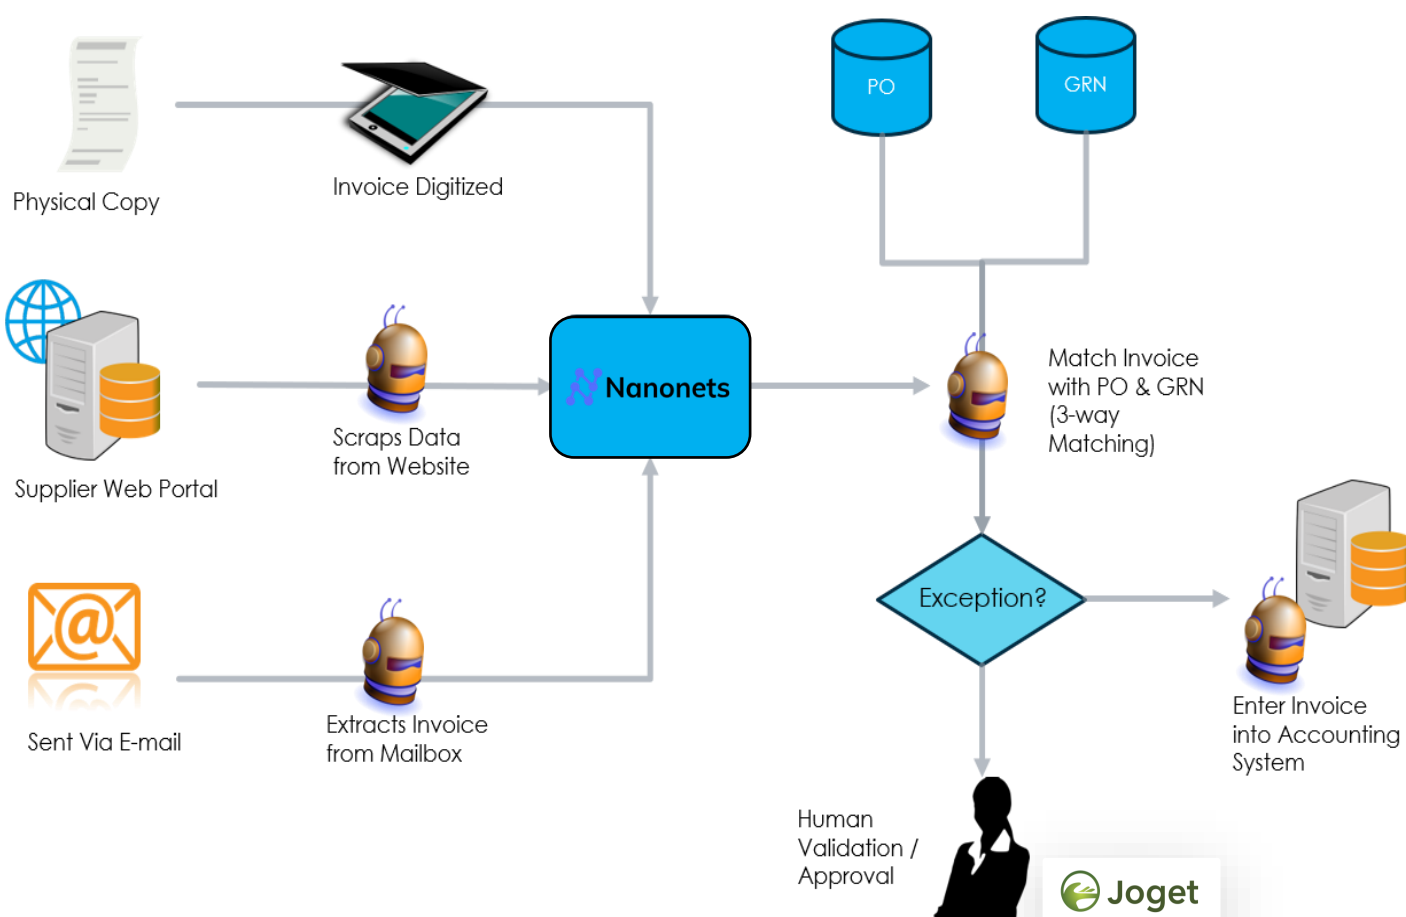

A combination of **3 technologies** that provide faster return-on-investment for our clients, yet without sacrificing on the solution's performance.

Nanonets

Joget

## How It Works

### Nanonets OCR Service

The OCR will be utilized to extract required information using AI/ML from invoices that come in either digitalized formats or scanned copies.

### Joget 'Human in the Loop'

This low code/no code workflow design application allows employee validation of the data captured to ensure accuracy in the automated process.

### Software Robots

Robots are utilized to mimic actions of humans in the process. Alternatively, API's can be triggered to perform Data Entry into ERP/ Business Applications.

## Data Extraction

The screenshot shows the Nanonets interface with a green arrow pointing to the 'DATA CAPTURED' section. The interface displays a list of extracted data fields for an invoice, including Company, Registration Number, Invoice Amount, Invoice Date, Invoice Number, Supplier Name, and Discount Amount. A 'Verify Data' button is visible at the bottom.

Example 1

col 1	col 2	col 3
No.	8029823	27 MAY 2020
Date	2020-05-27	
S/O No.	18008667	
Your P/O No.	N1 339278	
Term	60 Days	
Page	1	
Account No.	7P0218	

Example 2

DO Number	Description	Quantity	UOM	Unit Price	Line Amount
D/O No.	Description	Quantity	U.O.M.	Unit Price	Amount (RM)
38029823	Rebated Joint 600mm Dia. X 1.52M Lgth - Class "Y"	39	pcs	104.00	4,056.00
38029823	Rebated Joint 750mm Dia. X 1.52M Lgth - Class "Y"	13	pcs	145.00	1,885.00

DATA CAPTURED

The screenshot shows a data entry interface with a green arrow pointing to the 'DATA CAPTURED' section. The interface displays a table with columns for DO Number, Description, Quantity, UOM, Unit Price, and Line Amount. The data is being entered into the system.

## The Benefits

- **65% reduction on time spent** on manual processing.
- **Paperless** process
- **Reduced resources** required to perform tasks
- **Faster process** without adding headcount
- **Remote working** friendly
